**AD-ON COURSE ON HUMAN VALUE AND PROFESSIONAL ETHICS  
ORGANISED BY DEPARTMENT OF MANAGEMENT  
SESSION (2022-23)**

**INTRODUCTION**

The National Policy on Education has laid considerable emphasis on Value Education by highlighting the need to make education a forceful tool for cultivation of social and moral values. The policy has stated that in our culturally plural society education should factor universal and eternal values oriented towards the unity and integration of our people. In the present times of unprecedented changes dislocating traditional values and creating conflict between traditional and new values there is a universal concern in respect of erosion of values, promoting values and culture which fit in with the needs of the modern times. This concern is universal but is more acute for our country which has led its own distinct culture, worked view and a living value tradition. The process of developing in to a modern nation, with new social, political and economic institutions, and with emphasis on science and technology, has thrown up many new value – challenges in all areas of our national life. It is important that we examine these challenges and prepare our youth to face and resolve them.

- d) Engage in fieldwork, internship, community, non-profit or advocacy work

#### Overview

Women's Studies, also referred to as Gender Studies or Feminist Studies, is the interdisciplinary study of how inter sectionality of gender, race, age, class, nationality, ethnicity, ability, sexuality, and other differences impact almost every facet of the social, political, and cultural experience. The basis for the academic field of Women's Studies was laid in the student, civil rights, and women's movements of the 1960s and 1970s, when women in academia argued that academic knowledge production failed to recognize gender as a lens of analysis. Many women, concerned about the often inaccurate and disparaging patriarchal narratives about them, seized the opportunity presented to them in the 1960s and 1970s to tell their own stories. Women took advantage of their formal educated status and the cultural atmosphere of radical, social, and political uproar to insist on a more systematic and potentially trans formative narrative about women's lives. The discipline examines how gender not only influences popular culture and private life, but also impacts laws and social policies. By examining a cross section of disciplines such as political science, sociology, literature, psychology, and other subjects, Women's Studies seeks to understand gender roles in past and

College, Hoshiarpur,

contemporary societies. Women's and gender studies also examines how the lives of individual women and men are shaped by broader structural forces in both historical and contemporary contexts, for e.g., nation building, globalization, economic developments, and the legal system. Women's Studies continues to reflect in its curriculum and faculty research the constantly changing directions that multiple First and Third World feminism are taking today.

Women's Studies is an interdisciplinary field that examines socially- and culturally-defined gender roles. Drawing upon academic areas such as history, psychology, media sociology, sociology, literary criticism, and anthropology, it crosses the boundaries of traditional disciplines raising important questions regarding the way we have organized ourselves, our chief social and political institutions, and knowledge itself. As an area of academic study, Women's Studies provides new frameworks that are sensitive not only to issues of gender, but also race, class, and ethnicity. By analyzing the powerful and problematic impact of sexual inequalities, Women's Studies revises the way we see ourselves and our world. Because of the growing importance of women's concerns globally, undergraduates with a concentration in Women's Studies are well prepared for professional programs in law, medicine, and business, as well as graduate programs in social work, education, and arts and sciences. Indeed, students who major in Women's Studies, whether or not they choose to go on to professional or graduate school, are especially well positioned to work in education, policy institutions, development, media, social work, and the private sector.

Even though Women's Studies is a relatively new phenomenon in higher education, it is today well established as an interdisciplinary field of study, which draws on knowledge from both the humanities, the social sciences, medicine, and natural science. Today the field's interrogation of identity, power, and privilege go far beyond the category 'woman.' The first Women's Studies course is purported to have been created by American historian Mary Ritter Beard, who in 1934 constructed a 54-page syllabus for a course titled A Changing Political Economy as it Affects Women (Tuttle, 1986). Although the course was never taught, it prepared the foundation for the development of the first Women's Studies program in the United States. The first Women's Studies department was founded at San Diego State College (now San Diego State University) in 1970. At San Diego State, the original Women's Liberation group formed a committee with faculty and community members called the Ad Hoc Committee for Women's Studies. The group collected hundreds of petition signatures in support of a Women's Studies program. In

1970, five San Diego State faculty members from existing departments taught courses related to Women's Studies. In the fall of 1970, the first Women's Studies Department was officially approved. By 1974, San Diego State had begun a national faculty recruitment to strengthen the Women's Studies Department. By the 1974-75 school year, the once fledgling department had two full-time and four part-time faculty and an enrollment of nearly 400 students. The Women's Studies department continued to grow, and in 1995 began offering a master's degree in addition to the bachelor's degree. The program also hosts a Women's Resource Center on campus. The second Women's Studies department was created at Cornell University in 1970 as well. Cornell's program was renamed Feminist, Gender, and Sexuality Studies in 2002.

Women's Studies has made the conceptual claims and theoretical practices of intersectionality, the study of how modes of identity such as race, class, and gender, and the sociopolitical construction of inequality are mutually comprised and must continually be understood in relationship to one another, and trans nationalism, which emphasizes cultures, structures, and relationships that are formed as a result of the movement of people and resources across geopolitical borders, foundations of the discipline. Centrally Women's Studies was institutionalized into thriving academic programs across the country. Currently there are over 600 academic Women's Studies programs that offer minors, majors, and even graduate degree options. As a discipline, Women's Studies is concerned with achieving a level of equality for women in society. This dedication to systemic social change makes Women's Studies scholarship feminist and links the discipline to social movements that seek to end practices of inequity such as sexism, racism, and hetero-normativity around the world.

The place of Women's Studies within the academy has, of course, always been highly contested. Within the university, the discipline was said to not be academic enough. At the same time, however, feminist activists outside of the academy argued that the discipline was being too academic. Moreover, Women's Studies was further problematized by the emergence of disciplines like gender studies, and queer, transgender, and postcolonial theories in the 1980s and 1990s, which challenged the very categories of 'woman' and called into question the founding premises of its identity politics. This social activism appears to have given way to academic practice as the dominant mode of 'Western' feminism at the turn of the millennium. However, the goals of the women's movement have not been fully endorsed. Women still

# ADD-ON COURSE ON PROFESSIONAL ETHICS AND HUMAN VALUES IN MANAGEMENT

## ADD-ON COURSE ON PROFESSIONAL ETHICS AND HUMAN VALUES IN MANAGEMENT (2020-21)

Sanatan Dharma College Hoshiarpur  
Affiliated to Panjab University, Chandigarh  
Recognized by UGC Under section 2(f) 12 B  
Accredited by NAAC B+

### ABOUT THE INSTITUTE

Under the inspiring leadership and able guidance of the third illustrious president and Secretary of the College Managing Committee, Maa Sneh Amrit Anand Ji and Late Sh. G. D. Malhotra ji, the college took giant strides in becoming one of the most sought Post-graduation institutions of the region. Both these luminaries strived hard to introduce professional courses like BBA, PDGCA, BCA, and B.Sc. (Bio-Technology) in the college. In addition to these coveted courses, they were instrumental in adding vocational subjects like Computer Applications and Fashion Designing in

Arts Stream. It paved the way for arts students to compete with their counterparts and other professional streams.

### MISSION

Providing Quality Education, student-centered teaching-learning processes, and state-of-art infrastructure for professional aspirants hailing from both rural and urban areas. The institution aims at imparting technical education that encourages independent thinking, develops a strong domain of knowledge, and hones contemporary skills and positive attitudes towards the holistic growth of young minds. Besides this, the institution also aims at evolving into a Center of Academic and Research Excellence.

### ABOUT ADD-ON COURSE

The National Policy on Education has laid considerable emphasis on Value Education by highlighting the need to make education a forceful tool for the cultivation of social and moral values. The policy has stated that in our culturally plural society education should factor universal and eternal values oriented towards the unity and integration of our people. The process of developing into a modern nation, with new social, political, and economic institutions, and with emphasis on science and technology, has thrown up much new value – challenges in all areas of our national life. It is important that we examine

these challenges and prepare our youth to face and resolve them.

### DETAILS OF THE COURSE

The add-on course on professional ethics and human values will be of minimum of 30 hours. Verbal explanations, as well as demonstrations, will be given to aid the process of learning.

**TIMING:** 2:15 P.M. to 3:15 P.M. (through online mode)  
**CHARGES:** There will be no charges.

**INTRODUCTION**

The National Policy on Education has laid considerable emphasis on Value Education by highlighting the need to make education a forceful tool for cultivation of social and moral values. The policy has stated that in our culturally plural society education should factor universal and eternal values oriented towards the unity and integration of our people. In the present times of unprecedented changes dislocating traditional values and creating conflict between traditional and new values there is a universal concern in respect of erosion of values, promoting values and culture which fit in with the needs of the modern times. This concern is universal but is more acute for our country which has led its own distinct culture, worked view and a living value tradition. The process of developing in to a modern nation, with new social, political and economic institutions, and with emphasis on science and technology, has thrown up many new value – challenges in all areas of our national life. It is important that we examine these challenges and prepare our youth to face and resolve them.

Course Title:

Applied Mathematics

Eligibility:

Student should be enrolled at S D College, Hoshiarpur.

Duration:

30 Hrs including Theory and Practical.

Course Description:

This course is designed to give students to develop substantial mathematical skills and methods needed in other subject areas. Mathematics is widely used in higher studies, so course prepares students to use algebraic methods as a means of representation and as a problem-solving tool.

Prerequisites:

Computer proficiency and basic knowledge of Mathematics.

Course Co-ordinator:

Mrs. Shilpa

Principal  
S.D. College, Hoshiarpur

२०२०

Course Title:

## Applied Mathematics

Student Learning Objectives:

The student will be able to:

1. Students will become to model real-world experiences/problems into mathematical expressions using numerical/algebraic/graphical representation.
2. To develop logical reasoning skills and apply the same in simple problem-solving.
3. To make connections between Mathematics and other disciplines.
4. To make sense of the data by organizing, representing, interpreting, analyzing, and making meaningful inferences from real-world situations.

Sr. No.	Topics	Method of Instruction	Duration
1	<b>UNIT I</b> <b>THEORY OF EQUATIONS</b> – Roots of an equation – Relation between roots and coefficients – Transformation of Equations – Increasing and decreasing the roots of an equation – Reciprocal equation – Horner's method – Newton's method of finding roots.	Online Lectures. With use of PPT and Computer Practical	6 Hours
2	<b>UNIT II</b> <b>MATRICES</b> : Characteristic roots and characteristic vectors, Properties, Cayley Hamilton theorem, Inverse of a matrix, Diagonalization of a matrix and using it to find the powers of a matrix, Simple applications of matrices and determinants.	Online Lectures. With use of PPT and Computer practical	6 Hours
3	<b>UNIT III</b> <b>CALCULUS</b> : Derivatives, Maxima and Minima of function, Differential Equations, Application and Types- ordinary and partial differential equation, Solution of homogeneous ordinary differential equation, Lagrange method of solving linear partial differential equation $Pp+Qq=R$ .	Online Lectures. With use of PPT and Computer practical	6 Hours
4	<b>UNIT IV</b> <b>PROBABILITY</b> : Probability Definitions and Notation, Joint Probabilities, Permutations and Combinations, Using Factorial and "M choose N", The Sum Rule, Conditional Probability, and the Product Rule, The Binomial Theorem and Bayes' Theorem.	Online Lectures. With use of PPT and Computer Practical	6 Hours
5	<b>UNIT V</b> <b>LINEAR PROGRAMMING</b> : Introduction and related terminology, Mathematical formulation of Linear Programming Problem, Different types of Linear Programming Problems, Graphical method of solution for problems in two variables, Feasible and Infeasible Regions, Feasible and Infeasible solutions, optimal feasible solution.	Online Lectures. With use of PPT and Computer Practical	6 Hours

**PRACTICAL:** Use of spreadsheet study the nature of function at various points, maxima/minima, Matrix operations using Excel, LPP Problem, solving equations using graphs and SOLVER. Practicals in SPSS.

Course Title:

Refrigeration and Air Conditioning

Eligibility:

Student should be enrolled in B. Sc. (Non-Medical) at S D College, Hoshiarpur.

Duration:

30 Hrs including Theory and Practical.

Course Description:

This course is designed to familiarize with the terminology associated with refrigeration systems and air conditioning. The course curriculum focused to leads students toward a clear understanding and firm grasp of the basic refrigeration processes and the basics of psychrometry. This course also emphasize to acquire the skills required to model, analyse and design different refrigeration as well as air conditioning processes and components.

Prerequisites:

Understanding of the relevant basic concepts and principles in basic science subjects

Course Co-ordinators:

Ms. Sonali

  
Principal  
S.D. College, Hoshiarpur.

Course Title:

Refrigeration and Air Conditioning

Objectives of the Course:-

- Learning the fundamental principles and different methods of refrigeration and air conditioning.
- Study of various refrigeration cycles and evaluate performance using Mollier charts and/ or refrigerant property tables.
- Comparative study of different refrigerants with respect to properties, applications and environmental issues.
- Understand the basic air conditioning processes on psychometric charts, calculate cooling load for its applications in comfort and industrial air conditioning.
- Study of the various equipment-operating principles, operating and safety controls employed in refrigeration air conditioning systems.

# WORKSHOP ON ART AND CRAFT UNDER 'EARN WHILE YOU LEARN' INITIATIVE

Computer Applications and Fashion Designing in Arts Stream. It paved the way for arts students to compete with their counterparts and other professional sectors.

## MISSION

Providing Quality Education, student centered teaching - learning processes and state-of-art infrastructure for professional aspirants hailing from both rural and urban areas. The institution aims at imparting technical education that encourages independent thinking, develops strong domain of knowledge, and hones contemporary skills and positive attitudes towards holistic growth of young minds. Besides this the institution also aims at evolving into a Center of Academic and Research Excellence.

## ABOUT 'EARN WHILE YOU LEARN'

'Earn While You Learn' is an initiative taken under the aegis of Honourable President of the New S. D. College Managing Committee, Mrs. Hema Sharma. Its main objective is to make students explore their interest and provide them a platform to give concrete shape to their ~~growth~~ <sup>growth</sup> ~~interest~~ <sup>interest</sup> inspired. To achieve this purpose the college organizes various workshops wherein the students get the hands-on experience regarding various life skills. Students not only learn to make a variety of items related to art and craft, baking and sewing but also get an opportunity to earn by selling these

Items through exhibitions on different occasions in colleges.

## DETAILS OF THE WORKSHOP

The workshop on art and craft will extend over 2 days. Verbal explanation as well as demonstration will be given to aid the process of learning. The lesson pertaining to the preparation of earrings and bags, envelopes using paper quilting techniques will be imparted. Besides, it will be taught to prepare dream catcher as well as carry bags made from different fabrics. The material will be provided by the college and the participants need not bring any sort of material.

**VENUE:** Fashion Designing Lab

**TIMING:** 10:30 A.M. to 2:30 P.M.

**DURATION:** 1<sup>st</sup> to 9<sup>th</sup> Aug, 2019

**CHARGES:** Rs. 100 for Outsiders

There will be no charges for our college students.

Students not only learn to make a variety of items related to art and craft, baking and sewing

but also get an opportunity to earn by selling these items through exhibitions on different occasions in college.

### DETAILS OF THE WORKSHOP

The one day workshop will focus on decoration of different items using a variety of painting methods. Verbal explanation accompanied by demonstration will be given to aid the process of learning. The lessons will be imparted as to how to paint on different surfaces using various colour schemes and techniques. The decoration of aprons, table mats and pillows etc. will be taught. The material will be provided by the college and the participants need not bring any sort of material.
